PUBLIC NOTICE

Former Paul's and Huggins Cleaners, 1347 Florin Road Sacramento, Sacramento County

The California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board) invites public comment on the proposed project to expedite groundwater cleanup at the sites known as the Former Paul's Cleaners and Former Huggins Cleaners, at 1347 Florin Road, Sacramento, CA.

You are receiving this notice because you are a property owner or resident in close proximity to the cleanup site. This Public Notice fact sheet provides general information on the Site. The location of the Site is shown on the map below.

COMMENT PERIOD: February 22, 2021 – March 24, 2021

CASE SUMMARY:

Two dry cleaners formerly operated at 1347 Florin Road in the city of Sacramento, CA. Activities associated with the use of the dry-cleaning solvent tetrachloroethene (PCE) in clothes cleaning operations resulted in the release of the solvent to the environment and degradation of groundwater.

Cleanup of PCE in soil and groundwater at the site was initiated in 2011. A soil vapor extraction system has been operating since 2011 and a groundwater treatment system has been operating since 2015. Operation of these cleanup systems has significantly reduced PCE concentrations in soil and groundwater. However, residual PCE concentrations in groundwater are still above water quality standards.

The current property owner is proposing to inject potassium permanganate into soil and groundwater at the site to expedite cleanup of the residual PCE to meet water quality standards. Potassium permanganate is a strong oxidizer which acts to break down the solvents present in groundwater into safe byproducts. Groundwater surrounding the proposed injection area will be monitored to assess the effectiveness of the remedy and to ensure that no degradation of groundwater outside the treatment area occurs.

WHERE DO I GET MORE INFORMATION?

Reports and analytical results regarding this Site can be viewed by accessing the State Water Resources Control Board GeoTracker website at:
